After The NICU

Keep Calm and Call The Kidz Club

K

You're excited to bring your baby home and maybe a little concerned to be leaving the security of the hospital nursery. There may be new routines to follow - feedings, breathing treatments, and medications to give.

I

You don't have to do it alone. The Kidz Club can help!

The Kidz Club is a Prescribed Pediatric Extended Care Center. Imagine a daycare-like setting with a dedicated team of pediatric nurses, care givers, therapists, and teachers who monitor your child's medical condition throughout the day in a fun, stimulating atmosphere. That's The Kidz Club!

D

We improve the quality of life for our families and staff with a commitment to excellence in all that we do. Our goal is to offer quality pediatric nursing care and education that sets community standards and exceeds expectations in a safe, caring environment.

Z

Our care extends to the whole family, as we provide the opportunity for the parent or guardian to return to work or school.

Anyone can call to schedule an assessment to find out if a child qualifies for services and whether The Kidz Club is the right fit for that family.
